

Dear Sirs

Whilst having our 55ft. narrowboat built by Ledgard Bridge Boat Company Ltd. of Mirfield we decided to have one of your Prop Protectors fitted prior to launch. - It was one of the best decisions that we could have made!

We recently decided to cruise the Chesterfield Canal. This canal is notorious for its weed problem. This year it is even worse due to the problems of Foot and Mouth leading to the lack of weed cutting. Many people warned us of the difficulties we would have, but during the whole of the 58 mile round trip we did not have to stop, once while all around us people were turning back because they were forever having to clear their props.

We have recommended your product to many people quoting our experiences on the Chesterfield Canal.

Yours faithfully

“A satisfied Customer”
